Minimum Equipment List (MEL)

MEL Initial Issue & Revision
MMEL Revision Alerting

Service Background

ICAO in Annex 6-Operation of Aircraft defines the Minimum Equipment List (MEL) as “a list which provides for the operation of aircraft, subject to specified conditions, with particular equipment inoperative”.

GCS offers unrivalled knowledge and interpretative ability of applicable regulations, including EASA's, IOMAR's, CAACI's and BDCA's regulatory framework to provide operators with fully regulatory compliant MELs.

Benefits of a MEL?

A MEL provides an operator with additional flexibility and continuity of service as it allows operational personnel proper reference to operate aircraft with inoperative equipment, which could otherwise ground the aircraft. In the case of commercial operators, the development of an aircraft-specific MEL is mandated by the Authority.

Service Features

- Compliant, consistent, professional and user-friendly structure and format
- Fully customized to reflect National Aviation Regulations, the individual aircraft configuration and the specific operating environment
- Compatibility with Electronic Flight Bag
- Management of the regulatory approval process
- Express delivery available upon request

Customer Advantage

- Full regulatory compliance
- More time to focus on the core business
- Peace of mind as GCS manages the interface with the authority
- Customized MEL including actual STC status
- Customized Maintenance, Operational and Placarding Procedures reflecting the manufacturer's Dispatch Deviation Guide (DDG)

Deliverables

- Customized MEL including Maintenance, Operational and Placarding Procedures
- MEL approval application package as required by the competent Authority
- MEL revision service

GCS Credentials

- Proven track record
- Expert knowledge
- Excellent relationship with Authorities
- Many satisfied commercial and non-commercial customers
- All aircraft types served

Our Values

- Listening to customers' needs
- Sharing our experience/expertise
- Enabling professionals to excel
- Encouraging success
